Internet Connectivity	Connection required throughout testing	Connection required to start testing, can tolerate drops in internet connectivity
Devices	Desktop, laptop, iPad, or Chromebook	Desktop, laptop, iPad, or Chromebook

Digital SAT Suite: What's staying the same?

- ✓ The digital SAT Suite will continue to measure the knowledge and skills that **matter most for college and career readiness**.
- ✓ **The digital SAT will still be scores on a 1600 scale**, and no concordance is required with the current paper and pencil exam.
- ✓ The digital SAT will still be **administered in a school or in a test center** with a proctor present (not at home).
- ✓ Students will still have **free, world-class practice resources on Khan Academy**.
- ✓ Students will continue to connect directly to **scholarships and College Board National Recognition Programs**.
- ✓ **We'll continue to support all students**, including those who receive accommodations on test day.

We're not just putting the current SAT on a digital platform – we're taking full advantage of what delivering an assessment digitally makes possible.
Here's what's changing.

Digital SAT Suite: What's changing?

- ✓ **Students will take the SAT Suite assessments on a laptop or tablet.** If students don't have a device, we'll provide one on test day.
- ✓ Each assessment in the SAT Suite will be shorter – **about two hours instead of three.**
- ✓ Students and educators will receive scores faster – **in days, not weeks.**
- ✓ **Calculators will be allowed** on the entire math section.
- ✓ Score reports from the SAT Suite will connect students to **more relevant information**, including two-year colleges and career and workforce training programs.
- ✓ **The digital SAT Suite will be more secure and flexible.** Each student will get a unique version of the test. Plus, states, schools, and districts will have much more flexibility for when they administer the digital SAT, both on the weekend and during the school day.
